

FOR IMMEDIATE RELEASE

Cummins Northwest Signs with XLerant, Inc.

STAMFORD, CT.— XLerant, Inc., announced that Cummins Northwest has selected BudgetPak™ to control the budget process, and manage revenue and costs.

Cummins Northwest, located in Washington State, is one of Americas' largest distributors for Cummins Company, whose engines power school buses, medium-duty trucks, pickup trucks (primarily the Dodge Ram), and equipment for mining and construction. Cummins claims just under one-third of the North American market for heavy-duty truck engines. The company also makes power generation products such as its Onan generator sets and Stamford alternators. Other products and brands include Fleetguard (filtration), Kuss (fuel filters), and Holset (turbochargers). Cummins gets more than half of its sales outside the US.

"We are honored to have been selected by Cummins Northwest," says Lawrence Serven, President of XLerant, Inc. "They have an outstanding team of people and a real dedication for excellence."

About XLerant

XLerant helps companies control costs, instill fiscal discipline in the workforce, and manage profitability. XLerant's planning application; called BudgetPak, is unique in the way it replaces traditional budget templates & spreadsheet commands with plain English prompts and selections – making it easy for everyone to use. Improved collaboration, greater ownership of the numbers and increased transparency enable CFOs to better manage their business.
